

Explore the 5Ws (and 1H) for Routine Self-Inspections

Thursday, May 21, 2020, 1:00 p.m. EDT

On 5/21/2020 at 1:00 p.m. EDT, the SMCX will host the “Explore the 5Ws (and 1H) for Routine Self-Inspections” webinar.

The webinar focuses on planning and implementing effective routine workplace self-safety inspections (hereafter called “self-inspections”). In it, we will discuss the purposes and benefits of self-inspections, how self-inspections differ from the inspections performed by safety and health (S&H) professionals, the 5Ws and 1H of effective self-inspections, and the quality assurance (QA) role S&H professionals can play to help ensure self-inspection effectiveness.

WEBINAR

This presentation is beneficial to personnel wanting to learn about what it takes to make a self-inspection program effective. Attendees should have a basic understanding of routine self-inspection processes and procedures. Personnel gaining the most benefit from this presentation include those involved in designing and planning routine workplace self-inspection programs, or conducting routine workplace self-inspections, such as: S&H personnel, managers, supervisors and employees, Collateral/Additional Duty Safety (CDS/ADS) personnel, and non-supervisory personnel who participate in self-inspections.
