Spark Your Interest in Hazardous Energy Control during Self-Inspections

Thursday, June 18, 2020, 1:00 p.m. EDT

On 6/18/2020 at 1:00 p.m. EDT, the SMCX will host the "Spark Your Interest in Hazardous Energy Control during Self-Inspections" webinar.

The webinar focuses on identifying hazardous energy control hazards during self-inspections. It also discusses and provides examples of appropriately applied lockout and tagout procedures. In addition, the webinar provides information on hazardous energy control items and deficiencies to examine during routine self-inspections.

This presentation is beneficial to personnel wanting to learn more about hazardous energy control measures and deficiencies to examine during routine self-inspections.

Attendees should have a basic understanding of routine self-inspections prior to this webinar. Personnel gaining the most benefit from this presentation may include: supervisors, safety officers, Collateral Duty Safety Officers and/or assistants, and others with assigned safety inspection responsibilities.

Get the Dirt on Housekeeping: Right vs. Wrong Tuesday, June 23, 2020, 1:00 p.m. EDT

On 6/23/2020 at 1:00 p.m. EDT, the SMCX will host the "Get the Dirt on Housekeeping: Right vs. Wrong" workshop.

The webinar centers on ways to improve housekeeping and highlights some of the most common findings observed in areas with poor housekeeping. This workshop enables participants to develop a housekeeping checklist tailored to their work area from the example checklists provided. Finally, this workshop includes activities focused on helping you identify common housekeeping hazards. Participants will be able to use these examples to enhance their site's hazard recognition training.

This presentation is beneficial to personnel wanting to learn more about the differences between good and poor housekeeping. This workshop covers the hazards with potential

to affect employees' safety and health (S&H) attitudes and well-being in the workplace. Attendees should have an intermediate understanding of basic housekeeping requirements in work environments prior to this workshop. Personnel gaining the most benefit from this workshop may include: S&H personnel, managers, supervisors, and employees.
