

Hazard Analysis: Identifying Techniques for Safety Management System (SMS) Success

Thursday, July 16, 2020, 1:00 p.m. EDT

On 7/16/2020 at 1:00 p.m. EDT, the SMCX will host the “Hazard Analysis: Identifying Techniques for SMS Success” webinar.

The webinar focuses on the different types of hazard analyses and when to use them. The webinar also discusses management considerations to incorporate into your hazard analysis process, such as training expectations, who to involve, and reassessing analysis findings. In addition, the webinar provides information on how to use hazard analysis results to support your safety management system (SMS) and promote continuous improvement.
