

Common Issues with HazMat and GHS

Thursday, March 18, 2021, 1:00 p.m. EDT

On 3/18/2021 at 1:00 p.m. EDT, the SMCX will host the “Common Issues with HazMat and GHS” webinar.

The webinar focuses on hazardous materials and hazard communication (HAZCOM). It discusses how the Occupational Safety and Health Administration (OSHA) HAZCOM program aligns with the Globally Harmonized System (GHS) and describes the classes of hazardous materials. In addition, the webinar provides information on common findings and concludes with a list of best practices to help you manage hazardous materials at your organization.

This introductory-level presentation is beneficial to personnel wanting to learn more about HAZCOM, common workplace HAZCOM deficiencies, and related best practices. Personnel gaining the most benefit from this presentation may include: supervisors or other personnel responsible for managing areas with hazardous materials, employees or other personnel who work with or around hazard materials, safety and health (S&H) professionals who manage HAZCOM programs, and S&H personnel or supervisors who provide training on HAZCOM or hazardous materials.
