

SMCX

DoD Safety Management Center of Excellence

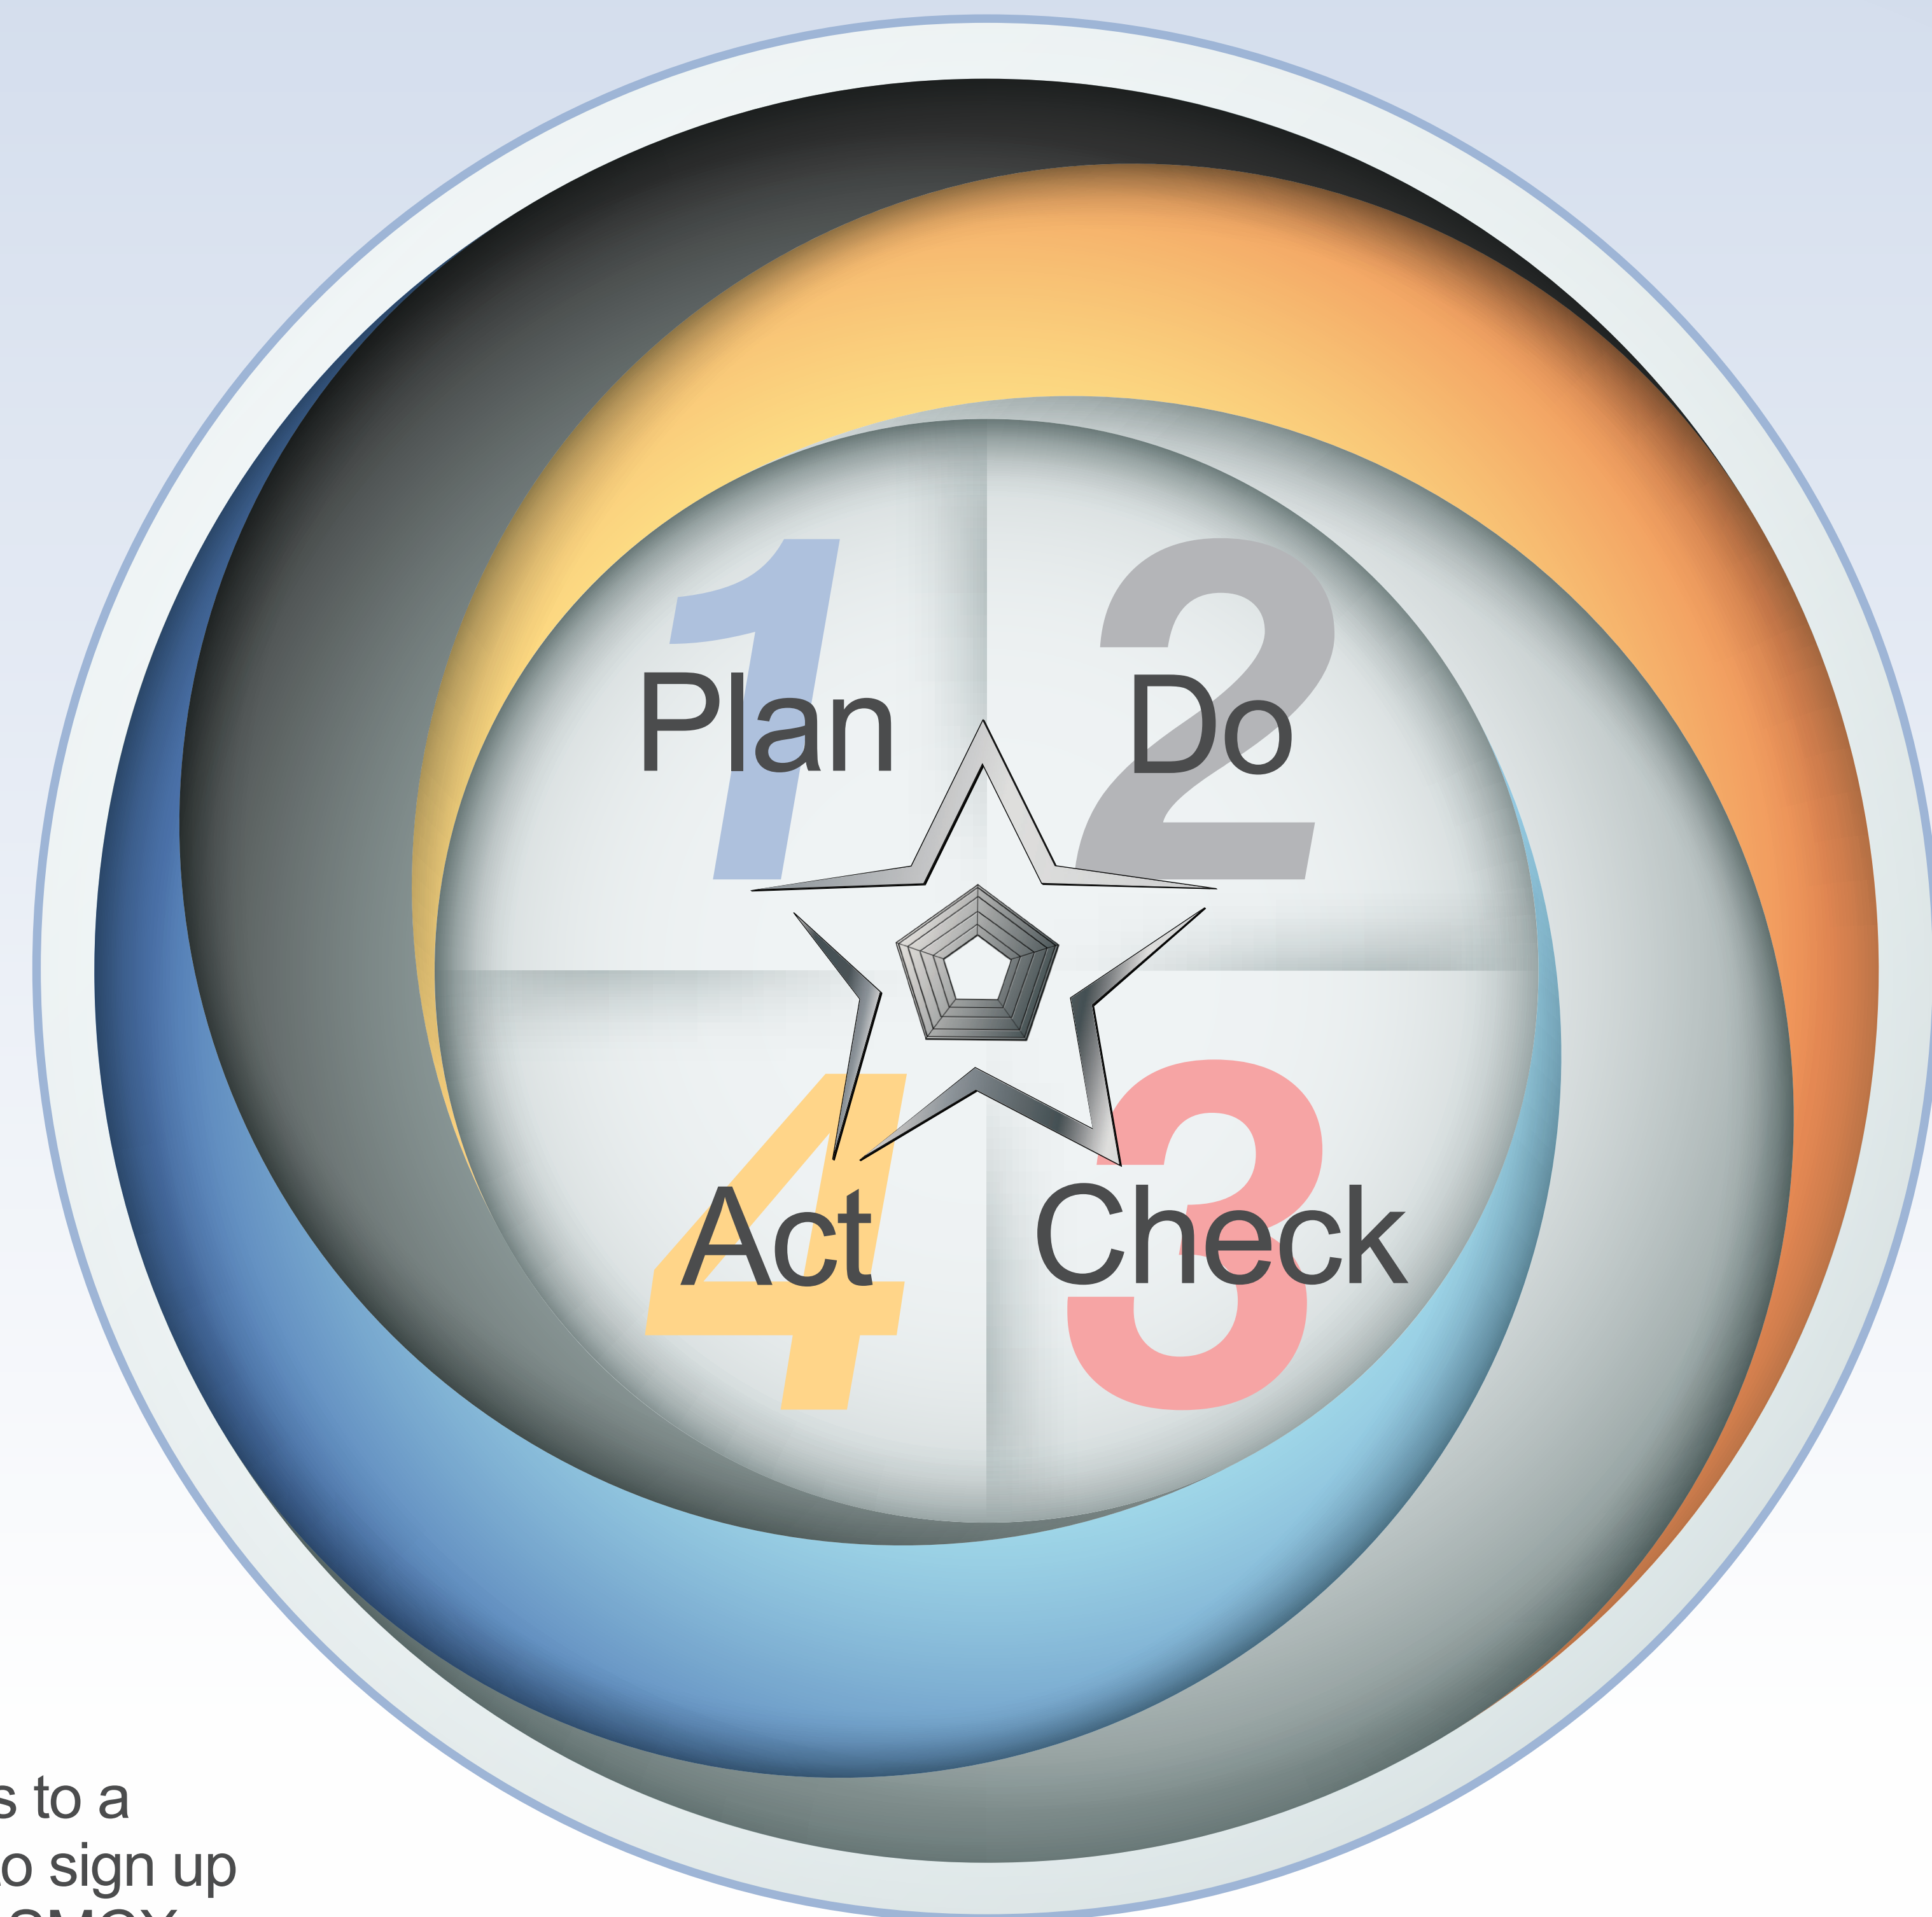

WHAT WE DO

Since 2006, the Department of Defense Safety Management Center of Excellence (DoD SMCX) has provided tailored industry solutions via multiple formats to support the DoD with Safety Management System (SMS) implementation and information sharing, general safety and health compliance and training, employer-employee relations, culture change and expert consultation. The DoD SMCX offers the following support for any SMS:

- Best Practice Research
- Compliance Review and Gap Analyses
- Organizational Analyses
- Support for Policy Development and Implementation
- Continuous Process Improvement Ideas and Plans
- Technical Assistance Visits
- Onsite Assessment & Audits
- Readiness Assessments
- Recertification Assessments
- Webinars
- Workshops
- Classroom Training
- Online Training

The DoD SMCX hosts the <https://smcscx.org/> website, providing users access to a multitude of safety and health training resources. The website allows users to sign up for training events noted above such as workshops and webinars. The DoD SMCX also hosts the e-SMS Tool, an electronic tool allowing a site pursuing SMS to complete an Action Plan, Annual Report, and Application all online.
